

## TODAY MORNING

# SENATE DEMANDS TRUTH OF PHILIPPINE UPRISING.

**Gen. Harrison Minimizes Extent of Recent Manila Outbreak.**

**Declares Native Disorders Have been Suppressed and that Trouble was Fomented by Revolutionists at Hongkong, Who HaveAppealed to the Most Ignorant Class of Islanders.**

[BY A. P. NIGHT WIRE.]

WASHINGTON, Dec. 27.—Details of native uprisings in the Philippines, beginning Christmas Eve, were given in a cablegram received by Gen. Harrison tonight at the Department, and made public by Assistant Secretary Brecken-

report minimized the extent of trouble, but stated that small bands of Filipinos had assembled in Manila and Navotas Christmas Eve, and Lagun Bay last night and seemed to make trouble. As a result, many men were arrested and one was shot by a policeman.

Gen. Harrison reported that disorders had been suppressed; everything was quiet and efforts were being made to arrest the chief of whom he said, "he is a man under suspicion of involvement for homicide, that nobody of any influence leading was concerned in the trouble; that it was 'small and tumultuous' and was connected with the revolutionaries who had been a revolutionary organization struggling for several years, 'apart from the most ignorant classes.'

Administration officials have reported that there was any trouble in the Philippines, and that the situation did not become so possible bearing on the granting more independence to the natives, which has been by the House, and is now before the Senate.

Philippine Commissioner was Wednesday to hear Dean Foster member of the government and at that time according to a statement made Hitchcock today, the

### DAUGHTER'S BIRTH OPENS THE JAILS.

### ITALIAN KING IS TO GRANT AMNESTY TO MANY PRISONERS.

[BY ATLANTIC CABLE AND A. P.]

ROME, Dec. 27.—The daughter born to the King and Queen of Italy Saturday will be named Maria, it is announced. It is expected that as a sign of rejoicing over the birth of the Princess, amnesty will be granted to a number of prisoners, including those condemned for participation in the revolutionary movement last June, and others accused of ordinary crimes.

**THE WORLD'S NEWS**  
IN TODAY'S TIMES.

SUPPORTED, CLASSIFIED AND INDEXED.

**The Foremost Events of Yesterday:** (1) Activity of Aviators. (2) Gen. Scott Settles Naco Trouble. Hindu Hurls Bomb in Temple at San Francisco. The Uprising in Manila. (5) Archbishop Riordan to Dead. (6) Italy to Neutralize Albania. (7) Cold Weather East.

### INDEX.

**Demands Truth of Uprising.** See to be Neutral Hereafter. Riordan Dead. Death of Advertisements. Death in Brief: Death record.

**Society Girl Hurt in Wreck.** Society Girls: Help Living. In the Churches Yesterday. Mortalities: Pin Points. Return to the Times. From Southland Counties.

**Society Trips Oldfield.** Society League a Winter Home. Sporting News. Theaters This Week.

### SUMMARY.

**WINDY DAY.** Wind at 5 p.m., velocity, 6 miles. Thermometer, 61 deg.; lowest, 47 deg. Fair. For complete weather see last page, Part I.

**CITY.** In a demonstration before the city of reprobates arrests of their felons, the police have made good progress. The cold wave is reported broken east of the Rockies.

**MEXICO.** Gen. Scott's agreement with the Mexicans at Naco is believed to have insured the neutrality of that town in the future.

**VILLE.** Vilely indignant at the attempt to insure the escape of Gen. Riordan, and says he must stand trial in Mexico City.

**THE GREAT WAR.** The Situation to Date: German aviator drops a bomb over the Thames estuary.

**Russians secure the ascendancy in Galicia, capturing many Austrian prisoners.**

**Italy insists on the neutrality of Alba-**

**nia and will not allow her to attack either Servia or Montenegro.**

**Dutch steamer is sunk by mines in the North Sea and a British steamer narrowly escapes.**

**COMMENT ON THE SITUATION.** The decided activity of the British fleet and aviators against the German base at Cuxhaven indicates that they are determined to get even for the recent German raid on their coast cities. It is also said that they are securing information which is believed to be useful to the allies when they resume their offensive. According to Russian reports their army has secured the complete ascendancy over the Austrians in Galicia and have won a series of victories from Poland to the Carpathian Mountains. The fact that Austria is on full force, there appears to be no diminution to the attacks of either side and more vigorous moves are said to be planned for the future.

**TWO STEAMERS RUN INTO MINES.**

[BY ATLANTIC CABLE AND A. P.]

SCARBOROUGH, Eng., Via London, Dec. 27.—The Dutch steamer Leesum, from Amsterdam, and the British steamer Gallier from London, struck mines in the North Sea today. The Leesum, which was bound for Liverpool, was destroyed and two of her crew were drowned. The Gallier succeeded in reaching port.

**CAZAR AT BATTLE FRONT.**

[BY ATLANTIC CABLE AND A. P.]

PETROGRAD, Dec. 27.—Emperor Nicholas, who left Moscow Christmas evening, has arrived at the battle front.

**COMMENT ON THE SITUATION.** The decided activity of the British fleet and aviators against the German base at Cuxhaven indicates that they are determined to get even for the recent German raid on their coast cities. It is also said that they are securing information which is believed to be useful to the allies when they resume their offensive. According to Russian reports their army has secured the complete ascendancy over the Austrians in Galicia and have won a series of victories from Poland to the Carpathian Mountains. The fact that Austria is on full force, there appears to be no diminution to the attacks of either side and more vigorous moves are said to be planned for the future.

## MEXICANS HAVE AGREED TO SCOTT'S PEACE PLAN.

*Naco to be Neutral Hereafter; Fighting to be Resumed at Nogales.*

*Army of Gen. Benjamin Hill will Abandon City to Maytorena—Villa Declares Gen. Iturbide Must be Tried for His Offenses at Capital and Denies Breach with Gutierrez.*

[BY A. P. NIGHT WIRE.]

**WASHINGTON.** Dec. 27.—Secretary Bryan received word unofficially tonight that the plan proposed by Brig.-Gen. Hugh L. Scott, Chief of Staff of the United States army, for the prevention of firing into American territory along the Mexican border, had been agreed upon by all factions.

Enrique C. Llorente, Washington agent of the Gutierrez government, of which Gen. Maytorena at Naco is a supporter, was advised that the latter had accepted the plan suggested by Gen. Scott. It provides that Gen. Hill of the Carranza forces should abandon Naco and be permitted to go unmolested to Agua Prieta, already taken by a portion of his troops. Gen. Maytorena, who has withdrawn his forces southward from Naco, would agree to occupy Naco, Sonora, which would therefore become absolutely neutral.

Gen. Maytorena already holds Nogales, a port of entry, he is said to believe that the arrangement was neither to his advantage nor detriment. From the viewpoint of Gen. Hill, the continued possession of Naco was said to be little value, because the Maytorena forces besieging it from the south prevented the further transportation of supplies obtained through the port from the United States, and by retaking Agua Prieta, Hill, it is believed, would be enabled to better defend himself against all attack.

From the point of view of the United States, the arrangement was favored, because either Agua Prieta or Nogales would not be close enough to the American towns to produce the same situation as had existed for several months at Naco, where stray bullets constantly fell on American soldiers.

Mr. Llorente said he had a telegram from Gen. Villa to the effect that the arrangement prevailed between Carranza and all the chiefs. Llorente, therefore, thought the arrangement made by the private secretary of Gutierrez, last night, charging Villa with disobedience of orders, was due to a misunderstanding, which could not have been serious, as the agents of Gen. Villa have announced tonight that the "Green Book," the latest diplomatic paper dealing with the Mexican revolution, will be issued this week. It was said that Gen. Villa would remain in the position he now occupies, as he is opposing Gen. Carranza, and would make public certain hitherto secret documents designed to prove that he had Carranza been made President he would have repudiated his pledges to the people and ruled the country as a dictator.

## ARREST ITURBIDE, ORDER OF VILLA.

[BY A. P. NIGHT WIRE.]

**MEXICO CITY.** Dec. 24 (via El Poco, Dec. 27) (Delayed)—Gen. Villa tonight telephoned officials at Chihuahua to remove Eduardo Iturbide from his command and turn him over to turn him a prisoner to Mexico City. Iturbide acted as Governor of the Federal district for a short time after the Carranza forces evacuated the capital. Upon the entrance of Zapata to Mexico City he fled to hide, as his arrest was threatened.

It was said that he was concealed in one of the foreign legations of the capital until two days ago, when he was brought into town and started on his journey toward El Paso. When this became known, Gen. Villa became furious, saying:

"A foreigner, an American named Lopez, is here to have evidence that Iturbide forced him to sign his plantation to join Huerta's army during the recent revolution and have asked for his execution as a traitor."

Gen. Villa, however, had modified his attitude in Mexican affairs. Iturbide must be brought back to Mexico City and stand trial for the offenses of which he is charged."

Iturbide is said to have evidence that Iturbide forced him to sign his plantation to join Huerta's army during the recent revolution and have asked for his execution as a traitor."

Gen. Villa, however, had modified his attitude in Mexican affairs. Iturbide must be brought back to Mexico City and stand trial for the offenses of which he is charged."

## BISHOP RIORDAN DEAD.

Head of Catholic Church  
of the Pacific Coast.Times After an Illness of  
Only Five Days.Sports of Science Fail  
Before Pneumonia.

The aviator had been killed in the forehead when he was sent to disengage his machine from the ground. He was so strong a flier that he had become double-headed in the French infantry. The machine had no sooner touched the earth and landed than he turned and flew, but it was considerably, then obliqued and went into a bad way; it made one turn and fly, but it was so bad that it was impossible to get out of it. The machine had also been looking to the machine gun and while the detachments clashed. There was indecisive melee for a few minutes, in which it was impossible to separate the French and the Germans.

The machine was captured, but not enough for the machine gun to charge with the bayonet through the trenches that command the valley of the Suisse."

Declares Employee Should be Protected as Well as Employer.

BY A. P. NIGHT WIRE.]

KANSAS CITY, Dec. 27.—A protective tariff, which protects the employer but which fails to protect the employee, is worse than none, according to Frank E. Walsh, chairman of the United States Committee of Industrial Relations, who spoke at the Chamber of Commerce here tonight.

The legislative body which  
subsidy to a manufacturer can  
readily and legally give to  
an employer, that manufacturer  
will benefit more than the employee."If the government has the right  
to support an industry in its  
social welfare," he said, "it  
ought to support that protection  
of workers to organize, which will  
allow children in its plants to  
have a wage less than that  
of the boasted American standard."The long incumbency of the  
devoted himself as

**THE CITY  
AND ENVIRONS.****EVENTS BRIEFLY TOLD****Musical Programmes.**

At a special evening of music at the Trinity Auditorium yesterday George R. Garner, tenor of the Hann Jubilee Singers of Chicago, entertained with solo and readings. There were also selections by the choir. The auditorium was filled and several hundred persons were turned away.

**Essay Contest Awards.**

The prize winners, announced yesterday, in the Caesar essay contest as conducted by Clune's Auditorium and the Public Library in connection with the Julius Caesar photo-play, are David Miller, C. H. Atherton, Joseph Flynn, Miss Zee Hoffman, John C. Malin and Sylvia Ruthstrom.

**Indoor Private Life.**

Chief Deputy District Attorney Ford and Deputy District Attorney Hammon, who will go out of office when a new regime begins the first of the year, have sent out announcements of their resignations from the firm name of Ford & Hammon. They will open offices in the H. W. Hellman building next Saturday.

**Overseas Club Christmas.**

The British Overseas Club will hold its annual Christmas tree social and dance in Burbank this evening. A varied program has been arranged, including Scotch pipes and a British rendition of "Tipperary." Over 100 prizes will be given and there will be refreshments.

**Poison Does Fatal.**

Taken to the Crocker-street Hospital after an alleged amount of poison, Miss Maile Hayt, 22 years of age, No. 344 West Fifty-fourth street, died early last night. Up to a late hour the police were unable to learn why the young woman took the poison. An investigation will be made today. The body was not removed from the hospital, but some time today will be taken to an undertaking establishment.

**SWISS MILITARY SERVICE.**

Country has no Standing Army, but Every Man is a Trained Soldier and Subject to Call by the Government.

[Newark Evening News] The republic of Switzerland furnishes an example in the way of military preparedness well worth study. It has no standing army, and yet every man is a trained soldier and can at any time be called upon to defend his country. There has been no violation of Switzerland's neutrality, not only because her topography is unfavorable for invasion, but because neighboring nations have a wholesome respect for the trained valor and thorough equipment of her citizen soldiers. Military training in Switzerland begins at the age of 8 years. From the ages of 17 to 49 service is compulsory at the call of the State. All males not incapacitated serve thirteen years in the forces, twelve years in the landsturm. From 8 years to 17 the boys receive military instruction in the public schools, and when they enter the army they are prepared for actual training in arms. In the first year of their service they spend from sixty-seven to ninety-two days in camp or maneuvering, depending upon whether they belong to cavalry, infantry, artillery or engineers. In the second year they serve thirteen days. The total service for the thirteen years is 341 days for infantry, 146 for engineers, 169 for cavalry and 162 for artillery. This is a grand scheme for a small nation, and it will be hanged if I'll be responsible for it."

That is my attitude toward the world and toward the best production in the Burton, but am willing to say a good word for the latter. Any play that has babies appearing comfortably through the front door and disappearing with less comfort, has got merit, even though it comes in a succession more rapid and picturesque than sentimental is certain to get a laugh.

If I live to be 100 years old I will see a more wonderful nation of the tripe to be never had, than Forrest Stanley in "Baby Mine," nor a more bewitching mother under trying circumstances than Miss Beatrice Nichols.

Forrest Stanley takes those three infant prodigies in his arms and smother them to his many bosom, his parental pride exudes in a purple cloud that descends in a shower over the audience. Mrs. Nichols, Miss Nichols, buries her head in the pillows and shrieks her protests against everything that is happening, you see, how divine what it is to be a mother to your nation. Mrs. Nichols is as dainty and as clever as the delicious nonsense of the part ever contemplated.

William G. Collier, as Jimmy Jinks, is the most afflicted member of the family, he has a mobility that made a classic out of absurdity. He was a scream from first to last and makes the farce one long laugh. He has done well with his part.

He deserves support in Miss Bryson, and Mr. Rand assist in preserving the humor of the situation. Miss Bryson makes a stunning Italian mother of just the proper exaggeration and size. Forrest Stanley, with his little Maggie O'Flaherty,

away with suggeness and bring on "Baby Mine."

At the Majestic.

"When Dreams Come True" is at the Majestic as advertised as a "romantic musical comedy of youth," and we have seen it not look back with lessened interest than the foibles of the young. Judging by its immaturity this comedy is in its extreme youth and we can only hope that it will be better when it grows up. Charity is supposed to be the main virtue of the hero and the heroine is a siren for a generous critic to spread his mantle.

The dreams would not be so bad if there were more of them and if they appeared often. There are fourteen of them in this play, but the book does not often challenge their materialization and the music is a negligible quality.

In the first act there is a sad, little skeleton of a ship on a phantom sea. The ship is built for passengers in parts of the detective, the hero and the two girl smugglers.

The detective is a very great detective and he admits this a number of times in the first act. In the second act the hero is proud of himself and the heroine is a siren some more.

In the third act there is much dancing and singing and marrying and giving in marriage.

With a book depends for its smartness on such bright lines as, "We should worry" and "Nobody ever broke into society with the name of Smith." It is safe to expect the worst. Every cloud has its silver lining and the work, which is consider all in a whole, has a few possible, if not redeeming, features.

Joseph Santley, Edward Hume, Mignon McGlynn and Ruth Randall would acquit themselves with credit in any company. The other two talents, and Marguerite Wolf is a clever clown girl of the Sis Hopkins type. The show has a couple of songs which get over, yet nothing really catchy or catching.

**Reform Movement.**

[Topeka State Journal] Massachusetts is asking for recognition in the matter of prison reform. The inmates of her penitentiaries are now furnished with night shirts. But one would have thought such a cultured center would have provided pajamas.

**Doubles.  
NO EUGENICS  
FOR BURBANK.****Stage of that Theater Made  
Arena of Infants.****"Baby Mine" is Triplets and  
Spells Laughter.****"When Dreams Come True"  
Opens at the Majestic.****By HENRY CHRISTEEN WARNACK**

It is a wonderful thing to have an instinct for twins, while the man with a bride welcome for triplets to have a heart of gold and ought to have a pocket book of the same stuff.

Either contract is no light matter, even though the subject is treated lightly at the Burbank this week.

A single baby is likely to have tremendous staying qualities, which coupled with its capacity for paragore, midnight strolls, and strolling with a group of friends, of consequence, not to say disturbance.

The old saying that every little bit added to what you have, makes just little bit more, is especially true of babies, where two or three of them are at the same time. Babies should occur again, but not necessarily. When numerous babies transpire simultaneously, there is likely to be more or less confusion in the household upon which this visitation provides.

"Baby Mine" is a glowing example of this homily. It is not a case, however, of the Lord giving and the Lord taking away.

The story is merely that of a foolish little girl who has a small jealous husband, and who thinks a baby will be the best bait. She has his friend telegraph him that he is a father and in her haste to land a nestful of plausible arguments in collecting three with no chance for natural selection or any other kind of differentiation to get in its work.

One of the babies is kidnapped for the afternoon and night, rented for the afternoon and night by the washerwoman. Somehow a washerwoman always has babies to spare. You never knew a couple who could afford one who didn't have six to ten. And in the end, the washerwoman who could afford twenty with any at all. This is one of the facts of existence, which helps preserve the axiom that the ways of Providence are mysterious.

Nobody understands less of all the playwrights and the washerwoman. Anyway, you could read this over and over until you were blind without finding the answer. It is a grand scheme to be able to start off in the world of this world. "I never made the thing and I'll be hanged if I'll be responsible for it."

That is my attitude toward the world and toward the best production in the Burton, but am willing to say a good word for the latter. Any play that has babies appearing comfortably through the front door and disappearing with less comfort, has got merit, even though it comes in a succession more rapid and picturesque than sentimental is certain to get a laugh.

LOS ANGELES

XXXIV<sup>TH</sup> YEAR.

Sister.

## WARN CITY OF RED REPRISALS.

W.W. Threaten to Loot and Destroy in Revenge.

Over Hundred "Protest" the Arrest of Comrades.

Police Vigilance Redoubled After Demonstration.

Warning the city of their intent to reprisals for the recent wholesale arrests of their fellows, 200 members of the I.W.W. assembled on Los Angeles street near First street yesterday afternoon, and cheered to a protest made by their orator leaders against the Griffith Park strike. The young ladies suffered many lacerations on their faces, heads and arms and numerous bruises. One of the young men was so seriously hurt that for a time it was believed he had been killed and an undertaker had actually been summoned.

The injured are:

Alice R. Lippincott, daughter of Mr. and Mrs. J. H. Lippincott of No. 1256 West Adams street.

Miss Beatrice Messmer, daughter of Mr. and Mrs. Joseph Messmer of No. 511 Manito street.

Robert Smith of No. 2824 Menlo Avenue.

A gay automobile party came suddenly to grief early yesterday afternoon on the San Bernardino road at Fair Oaks avenue, on the outskirts of Pasadena, when a motor car occupied by two Los Angeles society girls and their young gentlemen escort, turned turtle in avoiding a collision with another car. The young ladies suffered many lacerations on their faces, heads and arms and numerous bruises. One of the young men was so seriously hurt that for a time it was believed he had been killed and an undertaker had actually been summoned.

The Huerta regime was tottering.

War has stopped all lines of business and there are today more than 200,000 Mexicans in this country, many of whom are living in exile in this country, the majority of them in California," said R. Ruiz Benito, vice-president and master of the Mexican Workers' Union. Ruiz Benito, who had been wounded in the fall from that place last July when the Huerta regime was tottering.

"Mexicans don't starve and don't work

you can get what you think

ought to be paid for your services.

The thought of you working to Park and workin' four hours for three meals, and a 'flop' don't good. Don't do it. You don't

remember this town is

you don't have to go to work

out to Griffith Park. Don't go

SUNDAY MORNING.

## IN THE CHURCHES YESTERDAY

DR. SHAW.

**IMMANUEL PRESBYTERIAN.**  
THE ADVENT OF THE NEW YEAR  
SHOULD BE A TIME OF GREAT  
JOY AND PEACE WITH US.

**JOHN HALCOM SHAW,** pastor  
of Immanuel Presbyterian  
preached yesterday on the  
Divine Compensation—  
"How We Enjoy It Throughout  
the Year." Exodus xxxiii:14-15. In  
his sermon he spoke of general and  
special presence of God. There is a general and  
the presence of God. The difference  
is like unto that between electric  
currents and electricity focused at  
one point giving a glow of light  
seen by everyone. Or like the  
difference between a man's presence  
and his absence. In the former case  
you child somewhere in the  
range of your sight and hearing,  
but child right in your arms lying  
next to you. His smile is a comfort  
to us. There is no point where He  
is not at some point or under  
our conditions. His presence is  
discreased, personalized, ap-  
pealed, felt.

"All men everywhere are the prey  
of the vultures of society. What a  
pity it is to us that a family  
should be innocently caught  
in the night marauders and their happiness  
and safety instantly destroyed without  
help or recourse. How terrible  
that the whole family of a family  
should be cast under a cloud of sorrow  
and mental agony which years  
can scarcely dispel.

"No man can steal away the joy of  
man. No man can steal away the faithfulness  
of man. No man can steal away the  
faithfulness of man. He must have the immediate  
and real presence of Jehovah. That  
is not precisely our feeling,  
but Sunday of the year as we  
are into the fog the hangs  
over us. What is the meaning  
of the new year? A  
new companionship is wholly im-  
possible. Should the new year bring  
us, as it may do, only the  
sense of the presence of Christ  
able us to meet it with  
confidence. The stress of temptation  
will surely come upon us. What  
a felt nearness of the mighty  
and all give us the courage, the  
reassurance, the battle-weariness  
comes from the conflict  
and not victim? So also with  
successes, the achievement  
and the pleasures of the New  
Year will cause us to lose our  
and quite unnerve us unless  
the sobering sense of God's  
is sure.

Under these conditions we take  
care of the old year and start  
upon the course of the new  
year making the same progress  
as we did. My pre-  
dict go with thee, and I will give  
you.

The requirements must we meet  
we would realize the fulfillment  
of the divine companionship.  
we must believe in it. To doubt  
ourselves at once from its  
use. Unbelief will evil God's  
name. See that we must  
not be a farmer come upon  
his son and does his work  
upon them, so must a  
man live his life in a certain  
degree upon the faithfulness  
of making promises to give a  
son. That is all.

"Then, we must look  
upon the Christmas season. As a wife looks  
upon her husband, or a child to  
one of its mother, or a tour-  
ist to a symphony or sun  
she presence yields, so must  
to the presence of God in  
dependence upon it, day by  
moment by moment. Fourth,  
look on it. Never go with  
anyone to the Christmas season.  
Never do what will turn  
you away. Never let sin come  
into the sense of that holy  
season. Fifth, we must  
the present. Do what is  
Walk the path where it is  
come to us. Cultivate its com-  
panionship. Seek it in prayer and  
commune with it. Search for  
the word of revelation and ad-  
dition of it. Go where the  
God of old dwelt. THE GOD  
IS NOT FROM US.

**John M. Barnhart.**  
AVENUE M. E. CHURCH,  
THE CENTURION UPON GOD  
NOT TO FEAR FROM US.

**John M. Barnhart,** pastor of  
the Methodist Episcopal  
Methodist Church, spoke  
yesterday on "The Heavenly  
Prayer." He said in part:

"The question is being raised  
as they is this: Is it right that we  
should make merry and be glad. Is  
it right that we should sing jubilant  
songs and play lively games when  
so many are suffering and in  
need?

"That question has been recently  
brought to the front in a very able  
way in a little book entitled 'Our  
Christmas Joy,' which was written  
yesterday outlining under the heading,  
'The Ascetic Blight' the history  
of those in the past who have felt  
that joy and gladness is not an  
inevitable step forward when  
so many are suffering and in  
need.

"That question has been recently  
brought to the front in a very able

OFFICE:

New Times Building, First and Broadway.

LOS ANGELES (Loc Ahng-hay-ahs)

Entered at the Postoffice as mail matter of Class II.

GOING BROKE.

One of our fellow-citizens was held up and robbed early Saturday morning of everything he had, the same being 77 cents. It is perfectly easy to understand why he started for home.

THE FIREBRANDS.

New York seems to be having much investigation and debate as to the use and abuse of free speech. The question will finally resolve itself to what is fair and unfair and to what is intelligent and what criminal. Nothing is more insane than a tongue wagging without any head or heart behind it.

GET THE BUSINESS.

This new movement to strengthen the Monroe doctrine as a plank in the platform of the Republican party in the next campaign should be exceedingly popular. Our country has quite enough to do if it governs itself wisely as it stands and keeps its trade open with all other countries and their possessions.

OCCUPYING WILLIAM.

Secretary Bryan is now busy endeavoring to locate a countess who was formerly a society girl in New York. This solves a great problem for the present administration, the problem of finding something fitting to engage the Secretary of State. Mr. Wilson has finally discovered a job that is exactly Mr. Bryan's size.

JUSTICE AND CASH.

The Governor of Oregon agreed to pardon a crook convicted of swindling an aged couple out of their little home if the scoundrel would make proper restitution. He should restore the property and be punished, yet if it is a choice between the two eventualities, by all means let him make good, as the Governor suggests.

PEACE OFFERING.

The nails have been popping out like bullets from residences at Aurora. This is the Illinois Aurora and not the New York brand, so the popping comes from the cold weather and not from Hubbard ideas. We suggest that President Wilson recall Gen. Hugh Scott from Naco and send him to Aurora to intercede with the weather man.

LIVE IN SPOTS.

A family at Pasadena thought the father was dead and here he comes back after two years' absence and silence, having had a very pleasant trip around the world. This way some people have of dying to one locality and of being so much alive to another is enough to convince us all of immortality and the process of transition.

RUNNING FOR WISDOM.

Admiral Sir John Jellicoe, in supreme command of the British fleet, believes that running preserves the mentality. He is credited with running a mile before breakfast when on shore.

Many colleges encourage the cinder path athletics in the same belief. They declare that it makes for a versatile brain, that the sedentary scholar invariably works in a groove and will shine in a very limited area. For quick insight and emergency decision the runner is said to have the advantage every time.

Yet when one tries to recall any tennis or football player who has become great in any other department there is a distinct paucity of evidence. The Rt. Hon. Joseph Chamberlain, who was one of the most versatile and brilliant minds in modern British politics, hated all kinds of exercise and never even walked a block if he could avoid it. Still, he died without achieving any of his ambitions.

WOMAN'S WORK IS NEVER DONE.

Britannia has her hands very full just now. Like the classic housewife, her duties are never done. Besides patrolling the North Sea and keeping an eye on the Kiel Canal, lending a hand in bombing the Belgian coast, trawling for mines, escorting vast transports across the English channel, watching over Atlantic commerce, patrolling the Pacific, performing a little firework display in the Gulf of Mexico, guarding the Suez Canal, convoying Belgian refugees, comforting Yarmouth and West Hartlepool, taking a peep at the South African rebellion, scaring the Turk in the Dardanelles, lending a hand to Portugal, dodging aeroplane bombs, raising a billion-dollar navy loan, escorting mail ships from the Argentine and United States, parading around the China Seas, keeping London soothed, watching the Irish coast, complaining to Norway and Sweden, complimenting Canada, thanking Australia, arguing conversationally with the United States, providing the food supply, selling British goods, chastising belligerent alien cruisers, burying her dead, searching neutrals for contraband, arranging for new governments in the Camerons and the recently acquired German Islands, coaxing new recruits, training 'em when she's got 'em, pacifying weeping wives, smoothing out the pillows of the wounded, investigating spy rumors and gunpowder plots, transporting Indian soldiers, refuting a holy war, helping France get her African troops across the Mediterranean (the French fleet being very busy harassing the Austrian fleet) and generally keeping her salty pluck up, one way and another. Britannia ought to be excused if she exhibits a few nerves and a little touch-

EVERYTHING IS READY; GET BUSY.

A few months ago, when the war started, everybody was scared. Dollars scampered to the storm cellars and bankers put extra watchmen and more locks on their gold reserve. We feared that Europe would drain our gold supply. But it is working exactly the other way. Europe is throwing, fairly hurling millions upon millions of dollars in gold at us. We have the goods and Europe must have them. Only last Tuesday it was announced by Charles W. Schwab, president of the Bethlehem Steel Corporation, that the nations of Europe had placed contracts to the amount of over \$300,000,000 in the United States since the war started. And in time of war nations do business on a cash basis; when they run out of cash peace is restored. That \$300,000,000 represents money—not promises. It represents about the normal demand of expenditures that Europe will have to make in this country every four or five months as long as the war lasts.

Oh, yes. That knocks the breath out of those old calamity howlers who have been keeping a tin can full of dimes buried out in the back yard, and then going around telling how they distrust the banks and how every fellow must hold onto his money and not buy real estate, peanuts, automobiles, or anything else but the bare necessities of life. There have been a lot of those old croakers playing Jeremiah down in the business district of this and every other city in the land. But it's their move now; and unless they get out of the business district they'll get knocked down and run over, for the wise men haven't time to stop and listen to the hard-time chorus.

But here is the big point. The situation is changing in the United States. Without a war in Europe we would still have prosperity ahead. The country is waking up; the people have realized that you can't operate billion-dollar business under the same petty regulations and supervisions that worked very well for thousand-dollar business. The nation has passed through a transition from industrial competition to industrial co-operation. It used to be that the dry goods merchant stood in the doorway and knocked his competitor across the street to every passer-by. But the merchants, dry goods and all others, have quit that antiquated, narrow-minded competition. They have joined together to boost dry goods—their own and everybody's. They sell better goods and more of them.

It used to be that the railroad president sat up nights trying to figure out some way to cut some other railroad president's throat. But they have quit that. They sit together trying to figure out some way to make all of the railroads better, more efficient, so that the general public will like to ride on the railroad. They are serving the public instead of fighting among themselves.

And some years ago, when this friendly co-operation among business men was instituted, a lot of short-sighted and anti-quated fellows, who couldn't get over the ancient idea of cut-throat competition, refused to quit knocking and begin co-operation. Naturally, they lost money; naturally, their business couldn't keep up with the new activity; and they cried out that "monopoly" was killing them. And then the agitators found a chance to have a new excuse for making a noise, and the muckrakers jumped at the opportunity to get their names in the magazines, and the nation was saturated with commercial libels and false reports of rotteness.

Many people got frightened. They wanted Big Business—the business that talks in terms of billions, employs hundreds of thousands, keeps its faithful employees a lifetime and pensions them when old age comes along—the people wanted that sort of Big Business which made the great industrial activity of this mighty nation possible—they wanted Big Business to go back to the old corner grocery plan of doing things. And the war on Big Business started—and it came near finishing Big Business. In every age there are people who burn martyrs, imprison Galileos for declaring the truth about the stars, and execute those men—whether teachers, preachers or merchants—who are in advance of their time and trying to improve the world. Those were the kind of people who fastened onto Big Business and the men of genius that made it possible.

And if the European war had come then, or if the year 1915 had rolled around at that time, the situation would not have been such as to arouse any enthusiasm. But the people have awakened. They are beginning to see that the cross-roads stores and the corner grocery and the regulations governing them belong to the commercial stone age. The people are demanding more liberty for Big Business. It was the demand of the people—not the logic and arguments of the attorneys and officials of the railroads—that secured the rise in freight rates for the railroads. The people saw that the railroads were honest, that they were doing big things, but that they were losing money because the freight rates had not advanced in proportion to the decrease in the purchasing power of the dollar.

And now not only the railroads are once again on their feet and hiring men, building new cars, improving their tracks, laying new lines; but because the people are extending the same justice to other industries the whole commercial world is becoming rejuvenated and active. And what an opportunity it is for activity at this time!

Listen: The other day the British army placed a contract with one western meat company for 5,000,000 tins of beef.

Saturday morning the first shipment of cotton was made from a southern port for Germany, and the South has a bumper crop of cotton this year to dispose of, and from now on it will go out regularly and into markets where the price is high and the demand great.

The French government has just placed a \$1,000,000 order with an automobile company at Jackson, Mich., for automobiles.

The Studebaker Corporation has just been given a \$15,000,000 order for automobiles and equipment.

These are only recent orders, made within the last few weeks, and made on a cash basis.

And here is the New Year—ready to come in under such auspicious circumstances. And in all the world there is no place where the future is more auspicious than in California. This European war will force hundreds upon hundreds of thousands of immigrants to the United States. Most of

### THE MENU MAKERS.

BY EUGENE BROWN.

Cocktails.

The king and barons at their board;

The novice in her cloister,

Alike agree with you and me,

That all the world's our oyster.

With steel or blade its jaws we raid,

Though it may not deserve it;

Then in a trice with salt and spice,

We on the table serve it.

Soup.

Mock turtles make a good floater for a bounteous meal.

The meat of a palpitating young mock turtle is delightfully tender.

If you raise your own flock feed them heartily on sage and pepper, as it will impart a

gentle and tang to the flesh that seems appetizing.

They are called mock turtles because their shells are hollow like the skull of a single taxon. They are hollow turtles, as it were. When mock turtles are turned they make delightful household pets, as they do not sing. The only noise

they make is like the teasing, sibilant whisper of a member of the Order of Owls in a dry town.

When mock turtles are ripe for the table they weigh about three pounds apiece dressed, or three and a half with nightie on. Take a female of the species and bust her corset cover over an ax. Then pick out the meat with a tuning fork and place in a deep pan. Cover with water; season to suit, and stir in chopped celery, toast and onions. Let simmer until the savor drives you mad with hunger, and then serve with a scoop shovel and a napkin around the throat. Soup should be garnished and not inhaled.

Raising a tune for the

head is a pleasant and profitable occupation for women. Any school of correspondence will tell you how. It is important, however,

to get good stock at the outset.

Fish.

Salmon cutlets are not bad fodder in the fish line, and not even a fish line is essential in landing them. Salmon are so plump on the Coast that they can be taken with a fly net, bow and arrow, can opener or vacuum cleaner. The scales of the salmon can scale down the cost of living.

They used to say that when the salmon went up the Columbia River they were so thick that a man could cross the stream on their backs without getting his feet wet. But Isaac J. Podus knows better than that.

He lost an uncle on a bet of that kind. His Uncle Abner started over the river on a fine spread of salmon, but in the middle of the current swept a gap of a foot or more, and when a sock-eye turned with his weight he fell in. At once the opening closed above him and he was unable to get to the surface in spite of his struggles. The body was identified at the cannery factory, and it was about to be cut into steaks. Nowadays cans are thrown into the river before the rush comes. When the flood of salmon arrives the fish actually can themselves, and in the wild splash are thrown and rolled on the bank where they are picked up by the thousand.

All of these organizations are heavily off

ered, but undermanned.

The machine gun company is an example of the slipshod organization of the Guard.

In the regular service the regimental commissary commands the machine gun platoon.

The enlisted men are experienced and skilled riflemen detailed from the various infantry companies. In the 8th Regiment the machine gun command holds a commission in that organization and the men have all been enlisted expressly for that service.

If the Guard were ever called into the service of the United States government, this would result in hopelessness.

Before the machine gun company could be disbanded the commanding officer in command would be set aside; the regimental commissary, who knows nothing about it, would be compelled to take command, and the men would have to re-enlist in other infantry organizations, then be detailed back to the machine gun.

The Times believes there are in Los Angeles plenty of young men who would be glad to join the militia if it were on the right basis and in the right hands.

A wholesale house-cleaning is needed.

Once put upon the right basis, the militia should be organized anew as volunteers are raised in time of war.

Only a handful of men turn out for drills.

Fuds have broken out among the officers.

The expensive equipment furnished by the Federal government is going to rack and ruin.

This is partly due to a defective and leaky armor, partly to the slipshod system which makes it possible for the men to remove government clothing from the armor and wear it out.

To assess these ill in the most charitable

light this spells rank inefficiency, and this inefficiency seems to permeate every crack and corner of the Guard.

The company officers are guilty of slovenly and reckless carelessness.

The higher officers cannot be

said to have exercised the vigilance necessary.

Sacramento has run the financial and other affairs of the Guard with less system than a Chinaman would show in the conduct of a laundry.

Lastly, the California Legislature has handicapped the Guard with a set of feeble-minded laws which make real military efficiency impossible.

One crucial error of construction lies at

the base of all the other ill.

This is the system of selecting the officers of the Guard.

The system of selecting the officers of the

Guard is based on the principle that

the man who has the most experience

should be chosen.

## Valley League a Winter Home for Men of Many Leagues.

El Centro, Valley League leaders.

From left to right the men are Cornett, manager; Kanteleher, pitcher; Concannon, pitcher; Alexander, catcher; Bassier, center field; Flick, second base; Baerwald, right field; Meusel, left field; Gardner, first base; McMullin, third base; Bancroft, short stop.

## PLAYERS FROM NINE LEAGUES.

Fourteen Men from up in the Major Organizations.

Eighteen Coasters Playing Down There.

Lots of Class to the Game These Days.

(SPECIAL CORRESPONDENCE.) CALIFORNIA, Dec. 26.—Nine leagues are represented by the players in the Imperial Valley League, which has the distinction of being one of the few real winter leagues and the only one whose games are played below sea level.

Fourteen big-leaguers are scattered among three of the clubs, while the fourth, Imperial, is made up exclusively of Coasters. El Centro is leading the race, with Calexico and Imperial tied around second position and Brawley, until a few days ago made up exclusively of easterners, in the cellar. The race, which opened in November, has still over two full months to run.

## ON TWO TEAMS.

The majority of the eighteen Coast defenders wintering in the valley are on the payrolls of the Imperial and Calexico teams. Arbogast of Oakland is the only member of the Imperial forces and Dick Hayes of the St. Louis is the big boss of the border men. Both showed partiality for home talent.

Of the majors, there are eight American League players and six Nationalists. The International circuit is represented by three players of the Brawley team, the Southerns by two infielders and the Northwestern, Texas and Three I leagues each has one among those present.

## GOOD MONEY.

The stipend drawn down by the players is not staggering, but it is more than a shade better than the emoluments of players usual winter work. But two games a week are played and the climate and fair hunting are added attractions.

At the first of the season a few of the clubs offered \$100 a week, about enough to "get by," but largely by the example of other players rather than outside pressure they soon mended their play and now each game is attended by a fine competitive spirit and the fans are getting the most out of it. Attention to the game and the backers of the teams are becoming imbued with an enthusiastic optimism. Already plans for next year are beginning to be discussed.

## SOME IDEA.

When Ben Berry was down here he suggested that arrangements be made with four big organizations whereby each would take over the management of a local club and pit their stock of recruits against those of the others for winter training and exhibition. He pointed out that the recruits could be the nucleus of minors and, fighting for a place, would put up a class of ball. Berry thought the deal could be put through and talked it over with a few managers and directors, but nothing yet has been done in that direction.

Berry probably had an eye on his box office when he made the suggestion. He doesn't cotton up to the idea of the major league winter ball especially as close to home. He would like to have baseball dead in the winter and come out of its hibernation in the spring with a mighty burst that would shake the ducats out of the fans' pockets, which is good business.

## CHESS NOTES.

Joseph H. Keys of Redlands scored against O. E. Frazier of Los Angeles in the "State Quo" correspondence tournament by using the unrequent, but always interesting Lange attack. Students will find some interest in determining where the conductor of the black forces failed to see the advantages claimed for him by the books.

## Burman Had More Speed.

(Continued from First Page.)

speed fans, who had probably cheered him in many a fast race. The timing gear in the Fiat were hopelessly wrecked.

After a short consultation, it was announced that the race would postively take place. Earl Cooper's Stutz, Arthur Klein's King racer and one of George Bessie's fast red berlines were all out at the start. Burman was over and looked at the Stutz and Earl Cooper showed his sporting blood by offering the machine to Burman.

## GETTING READY.

There was a quick change of tires, oil and gasoline, while Kline drove Klein and the troupe exhibited, and Eddie Rickenbacker entertained the crowds with the baby Peugeot.

Oldfield drove one practice lap in the track and then wheeled to the wire for the start.

It was agreed that if either car went out in the first five miles, the race was to be stopped and the unfortunate driver was to take Klein's King racer, which was held in reserve at the pits.

## FAST START.

The Stutz had a better getaway than the Fiat or even the baby Peugeot. Burman led Burman into the first turn. There were cheers for Burman, again and from them on through the fifty miles of dust and speed, the master driver held his popularity.

While Oldfield outdrove Burman on the turns, the Peugeot pilot made up the deficit and when the race was over his fast car could be 1st out. For five miles, Burman led to the tape on each round by a few yards.

## SPEED.

The first five miles were done in 5m. 40s, and the first ten miles were covered in 1m. 14s.

Passing the pole, led Burman through both curves on the tenth lap and finished in the lead for the first time in the ten laps. The eleventh was a dead heat and the twelfth, thirteenth and fourteenth brought the two drivers together, won on Burman's part. The Stutz pilot was holding the car to the pole and gaining many yards on each turn, which were only lost again on the straightaways.

At the end of the Fiat, however, while Burman, carrying a mechanic, but on the Stutz George Hill occupied the mechanic's seat to hold the heavy car down on the curves. The dust began to raise on the track in the fifteenth lap and developed into a gray cloud each turn before the race was half over.

## IN THE LEAD.

Oldfield jumped into the lead on the first straightaway of the seventeenth lap and held it for two circuits of the course, being passed again by Burman on the twentieth. The driver held about even up to the twenty-eighth lap. Burman had the speed on the stretches, but Oldfield's work on the curves held the Stutz up close.

On the twenty-eighth the Peugeot picked up speed in one of her turns. Burman lost several yards making the change. When he got out on the course again Burman had more than a lap on him.

It was then that the race started. Last year Ben Barney reeled off the mile in fifty-four seconds, and on each mile Burman made up just about two seconds.

## CATCHING UP.

For fifteen laps Burman averaged fifty-two seconds to the lap. The half mile was cut to a quarter, then to an eighth, and driving on in the stretch together and in another lap the Peugeot passed into the lead on the first turn of the forty-fifth round.

The dust was heavy and on each turn Oldfield would throw up an artificial sandstorm which Burman had to pass through. Time and again the speed king would lean well out to the side and hug the fence to keep out of the dust as much as possible; but on every turn he gained.

There was nothing to hold back for. He wanted the race and there was but one way to get it—speed.

ALL BURMAN.

From the forty-fifth lap to the finish it was all Burman, but there was always the chance for a mishap. A tire change or the least miss in the engine would cost the race.

Burman is a tall and slim guy.

He is a fast runner and there was but one way to get it—speed.

ALL BURMAN.

Not only did Burman lose the fifty-four cars, but he also lost the lead.

Not only did Burman lose the lead.

**Sad Fate.**  
**NAT MEARS HAS TWO ILL OMENS.**

*if Auburn Hair Crosses His Path.*

*if the Air Gets Very Chilly.*

*Months' Rest Improves His Game.*

**BY ALMA WHITAKER.**  
Captain of the Annandale golf team, champion of the club, a star over in every intimacy with par, but red-headed maidens and cold weather may be his low.

His girls have to be really red, really curly, before they can stand their disconcerting, sinister looks. But when with a one-crossed eye he sees N. P. Mears on his way home next post, it is like a lake like the day holds a surprise for him.

**ILL OMEN.**  
It is to him a more serious omen than crows, hunchbacks, bad boys, rats, falling pictures, "horror" spills, broken mirrors, and the rest of the bad omens of the world. And his evil spirits that haunt him. And really golfers. Every bad fairy he has taken a special delight in bad golfers. What the poor soul goes through seeking changes in his game, putting pixies, well but the victim can guess.

Mears doesn't really disapprove of red-headed girls. But what cares he if they be? They are not something in their appearance that entices him to him and unmans him. Every loss its erstwhile accuracy putting, his hand loses its steadiness, his heart—but, of course, golfing, any hearts worth meting, as any gold widow will attest.

**TWO FATES.**  
An opponent of Nat Mears in a tournament prays for the absence of curly-headed maidens. Or weather. For a cold day also has a disastrous effect upon the star's game. He has been known to turn his back against his skill, but a breeze from the north plays up with his most confident shots. Elsewhere, wherewith he is wont to do his best, putting puts him at a temperature drop. He might as well try to achieve it with a broom.

He was when red-headed men had the same effect, but that part of his head has long since come off. Two years ago, he succeeded in defeating Ab French by 4 and 2, after having been down 4 and 3.

**GREAT STUFF.**

He regards as the most satisfying record he ever played. That was a two-hole victory over French. It was an achievement for him with laying the family ghost. Last year he defeated Armstrong and the club championship from himself, distinguishing himself in his invitation tournaments. He won the cup by the dozen.

Mears returned from his six weeks on his apple ranch up in Oregon, and was promptly selected captain for the year. Each year he is invited to forego his vacation, and it would seem to be a good recipe for improving his game.

For each year he receives greater skill in the game, and with it comes the vicinity of par, and the round robin qualifying for Christmas Day with a 74.

By the way, in these days of useful exchanges it is worth recording that apples obviously

**SOME OUTFIT.**

Another thing is to be noted about Mears. He has provided himself with breeches and golf trousers. He has always been in trousers, and stockings were to the golfer what "the veil" is to the nun. It is the time for serious business arrived.

In a later place when the established star of many seasons, red-headed golfer, like Norman McLean, reached the place where one is steady, he steadily improved his game, the easier who steadily improved his game, the easier he was to be seen continually in the galleries.

Young players take to them with precipitate enthusiasm, but the ones who steadily improve their game, the easier who steadily improve their game, the easier they are to be seen continually in the galleries.

His adoption of golf marks a certain nervousness.

**VERY STEADY.**

Mears himself plays a peculiarly steady game for a young man. He is a good all-round golfer, equally at home with all his clubs. And now he has completely lost his slice. That had been his chief handicap, a persistent tendency to send his drives flying to the right. He seems to have been compelled by that absent treatment, for his six months away from a golf course has achieved the miracle. His favorite club is, perhaps his driver, which he uses continually in his putting.

Yesterday they played a keen four-some on the San Gabriel links. It had been scheduled for last Sunday at Midwick, but after a long conference to play on the blinding rain, they decided the weather the whole

N. P. Mears.

Captain of the Annandale golf team.

Mears and Gartz were challenging French and George Cline of San Gabriel in a 36-hole match. But they got beat 2 up and 1.

CLASS.

Ab French had a wonderful round of 72 in the morning, and that stood as the record for the country until Bacon broke it with a 70 two weeks ago. Cline, Mears and Gartz could not come anywhere near such championing golf, and their 78's, which were never times, would have been considered very creditable, looked quite mediocre. But Gartz and Mears managed to win two holes back in the afternoon round; they had stood four down when the matches were won and lost on the greens. French, in overcoming the temperamental vagaries of his own red head, has become a fine player. Wright has always been strong in the green game. Craney Gartz has returned from Chicago with a markedly improved game in which putting plays a worthy part.

Jewett, Biggar and Cornell have also come in this department.

Horace Major is something of an unknown quantity, notwithstanding Neville of the Pacific Coast Golf Magazine places him among the good putters.

It is an old axiom that the matches are won and lost on the greens. French, in overcoming the temperamental vagaries of his own red head, has become a fine player. Horace Major is something of an unknown quantity, notwithstanding Neville of the Pacific Coast Golf Magazine places him among the good putters.

It is an old axiom that the matches are won and lost on the greens. French, in overcoming the temperamental vagaries of his own red head, has become a fine player. Wright has always been strong in the green game. Craney Gartz has returned from Chicago with a markedly improved game in which putting plays a worthy part.

Jewett, Biggar and Cornell have also come in this department.

## COAST LEAGUE LOSSES APPROXIMATED \$200,000.

*Failure of California State League and Erection of Two Plants that Proved Failures, Coupled with a Bad Season, Hit the Organization Hard—Poor Ball Hurt Attendance.*

BY HARRY A. WILLIAMS,

**T**HE Coast League comes up as the Bat Nelson of organized baseball in the matter of assimilating punishment.

There is one point of difference, however. Bat has been licked repeatedly, while the Coasters have yet to go down for the count.

The league has received some awful toots, been sent to its knees several times, as it were, but it always came back, and finished strong.

It tottered when Fresno and Tacoma proved unable to shoulder the financial burden of supporting high-class baseball, blowing a couple of large holes in the circuit.

The great Grandine fire and earthquake was a jolt which figured to kill any league outright, but the Coasters finished the season. It was saved by the money of J. Cal Ewing and Henry Berry. These men bailed the league out of the pocket of fire. Both have since been rewarded handsomely, but they took worse than a gambler's chance. With the bay district in ruins, it did not look like there would be a dollar's profit in baseball on the Coast for years to come.

And now the league has emerged from the third "bad year" of its career. The old ship has been buffeted on the seas of financial reverses during the season just past, but came through on an even keel and has steamed nicely for the 1915 season, which promises to be the best of its career.

Out of the reverses of 1914 has grown a better, a reformed and a stronger league.

Just how severely the league was hit in the region of the exchequer, has never been given out officially, but nothing less than six figures will cover its losses.

No team in the circuit made a dime on its season's play, while there were some who finished in the hole.

Ewing Park in San Francisco, erected at a cost of \$100,000, and the Venice plant, which stood Main, \$50,000, were the chief financial instruments. Gas as played in these parks presented an actual loss to the league, to say nothing of the original investment.

One of these parks has already been abandoned and official announcement is expected to-day that the Venice plant is to be vacated, and the club brought back to Vernon. The Venice plant may be torn down and re-erected at Vernon, and possibly in a year or two, the material at Ewing's Field may be used in construction of a park elsewhere.

Contrary to expectations, Rhine Hitt's 1915 contract does not contain a "non-weinerwurst clause."

The omission of this is believed to be one of the concessions made to him for turning down the Feds and remaining on the Coast.

Rhine is a slave of the "hot dog" habit. His friends have just about given up all hope of reforming him. Most of his surplus earnings go to the sandwich baron who peddles his steaming wares at the ball park each day.

Before each game he generally wrapped himself around two or three smelly weinerwursts. During the contest he would sit on the bench and drink beer, and eat and sniff the aroma of the same as it was wafted to him across the open space from one of the distant bleachers. The finish of the game would find him crouched to spring upon other defensive players for his meal.

With a favorable wind, Rhine can sit on the bench at the ball park and detect a weinerwurst in the process of being cooked at the corner of Washington and Main, doing so with a smile and a "smell" and a "smell."

It is safe to say that the total losses for the season exceeded by at least \$10,000 the \$20,000 received from Salt Lake for the players and franchise.

The other club owners were forced to meet the pay roll and assessments of the Sacramento club for the last two or three months. This is believed to have cost the league from \$15,000 to \$20,000.

It is safe to say that Sacramento's total losses for the season exceeded by at least \$10,000 the \$20,000 received from Salt Lake for the players and franchise.

Contrary to expectations, Rhine Hitt's 1915 contract does not contain a "non-weinerwurst clause."

The omission of this is believed to be one of the concessions made to him for turning down the Feds and remaining on the Coast.

Roy Rhine Hitt can smell a block away.

not the backbone of the league, is an important vertex in its financial affairs. At least it was so regarded before last season. The receipts there dwindled until they looked like a couple of mustard seeds viewed through the small end of a telescope.

One of the southern clubs took away with it less than \$200 as its share of the series. This was a sad drop in the water.

It is perfectly clear that there was a sad drop placed in the league's exchequer. In the absence of official figures, \$200,000 would seem to be the fair guess as to the losses suffered by the league in 1914.

Fairly safe guess would be a fairly safe guess as to the losses suffered by the league in 1915.

It is a day when the "hot dog" habit has little but a sufficient close to give a fairly accurate glimpse of baseball's seamy side.

Contrary to expectations, Rhine Hitt's 1915 contract does not contain a "non-weinerwurst clause."

The omission of this is believed to be one of the concessions made to him for turning down the Feds and remaining on the Coast.

## Which of these Lovely Damsels is the California Girl?

Nellie Preston.

Viola Fortescue.

Nanelle Foster.

Margaret Houck.

Genevieve Robay.

### AT THE STAGE DOOR

#### TUESDAY WILL END CONTEST.

Answers in the California girl contest must be in the Times office by 6 o'clock p.m., Tuesday.

The writer of the brightest answer which correctly identifies the one California girl will receive tickets for a box containing six seats at a performance of "The Poor Little Rich Girl," running at the Mason this week. Second best answer receives four seats, and eighth next in order of merit receive two tickets each.

Answers may be in verse or prose, with not more than twenty lines of verse, if such be the medium chosen; or not over 150 words, if in prose.

**Season Tickets.**  
The sale of season tickets for the three-week engagement of the National Grand Opera Company of Clune's Auditorium will open at the box office of that playhouse at 9 o'clock this morning.

**Haw, Haw, Haw.**  
Joseph Montrose, manager of the Majestic Theatre, says never play pool with a magician. He's got too much on you.

**SCHAFFER SHINES IN SOCCER GAME.**  
The Sons of St. George held United to 0-to-0 draw. GOAL KEEPER CAUSE.

The Sons of St. George surprised the soccer fans yesterday at Manual Arts by holding the strong Uniteds to a 0-to-0 draw.

The reason for it was the St. George fullback. He was Capt.-elect Schaefer of the University of California, who is here for his Christmas vacation. He strolled out to Manual to fill in.

**ON THE MOVE.**  
The Masterpiece company, with Max Fleischer, leading man and head director, has removed from its present home in a large site in Hollywood, where a big stage is being built along with adequate dressing-rooms, developing department and offices.

**Some Present.**  
"Prince" Sherry, one of the leading men at Inglewood, got a queer one in his stocking on Christmas.

Mr. Sherry performed some service for one of the Barnes girls, who was wintering in Venice, and to show his gratitude the man gave Mr. Sherry a baby elephant!

"It's a very nice elephant," said Mr. Sherry, with deep feeling, "only that there seems to be no place in the house without much scenery and no orchestra. The inhabitants used to bring all their children and dogs, and one night we were up a boy fight that took up the show."

"Hard sailing in those days, but I always worked, worked, worked. And once I won my way on Broadway, things went easier. But I lost it, and a big heap. Then hard knocks, and I am not better off for them now."

**NOT SETTLED.**

Babies in Ashanti. [London Standard:] When children are born in Ashanti they are at once rubbed all over with a mixture of oil and red ochre, this being repeated every two days. Their mouths are washed with a fiery concoction in which pepper is the main ingredient, and the eyes given a sharp rub.

This is the second game that the Uniteds have failed to score in. The Rangers defeated them a week ago, 4-to-0.

**Babies in Ashanti.**

[London Standard:] When children are born in Ashanti they are at once rubbed all over with a mixture of oil and red ochre, this being repeated every two days. Their mouths are washed with a fiery concoction in which pepper is the main ingredient, and the eyes given a sharp rub.

Next a basin of water is provided and the head man, or chief of the town, sprinkles water upon it, leaving it a name and invoking the blessing upon the child. For instance, if he has health, power to manhood or womanhood, and a numerous progeny and possess riches.

Most of those present follow the example of the head man, and the poor child is thoroughly drenched before the ceremony is over. Every one who participates in the ceremony pledges himself to be a friend to the child.

**Some Scream.**

"Oh, yes, I can scream," said Beatrice Nichols, who made the headlines of her mother's life in "The Sign of the Cross." "There's lot of it in this piece, and I'm glad it's one of my specialties. Where did I learn how? In 'The Sign of the Cross' when I played the part of the boy, Stephanos. I took my mother to see it, and she didn't scream it, just wouldn't come."

We told me that screams were my principal lines, and I'd have to leave if I couldn't do them. It sounded gaudily to me, that first little piping scream; but by and by I got so I could scream artistically, and now I do it pretty well, don't you think?"

**Beatrice Nichols.**

Leone Dana, 15-year-old celebrity who plays a child of 8 in "The Poor

Susanne Rowe.

Which is she?

These girls are in the cast of the "Poor Little Rich Girl" company which opens tonight at the Mason Opera House. One of the girls was born in California. For the most cleverly-written correct answer the writer will receive tickets for a box containing six seats.

The writer of the next best answer will receive four tickets for orchestra seats. Eight other prizes of two seats each will be given.

**Season Tickets.**

The sale of season tickets for the three-week engagement of the National Grand Opera Company of Clune's Auditorium will open at the box office of that playhouse at 9 o'clock this morning.

## YOUR LAST OPPORTUNITY TO PICK OUT THE GIRL.

**TODAY** The Times publishes in a single group the pictures of the six winsome young women, whose features may be perused by its readers with pleasure and profit, because one of them is a California girl, all are good to look upon, and a correct choice of one California girl will entitle the buyer to two tickets to the Mason Theater for a performance of "The Poor Little Rich Girl," which opens there tonight for a season of two weeks.

Answers may be written in either prose or verse, and all must be in

The Times office by 6 o'clock tomorrow. Tuesday evening, the time of closing the contest.

If written in prose, answers must not exceed 150 words, nor more than twenty lines in verse, not more than twenty lines in prose.

Ten prizes will be awarded correct solvers of the puzzle. The brightest answer will secure six box seats, the second best, four tickets, and the next eight in order of merit, two seats each.

Winners will be announced in Wednesday's issue of The Times.

Address all answers to California Girl Editor, Los Angeles Times, Los Angeles, Cal.

All the Time.

## LOTS DOING IN SPORTS OUT AT EXPOSITION PARK.

**E**XPOSITION PARK playgrounds were well patronized yesterday, tennis courts, basketball and archiridrome being filled with players in informal games, though no set matches occurred.

Three baseball games were contested, though but one of them figured in a regular schedule.

Los Angeles team of Knights of Columbus League defeated the team from Santa Monica by eleven runs to five. The local team, apparent league champions, have so far won every game played, and took yesterday's affair without a hitch.

Harris and Frank batters knocked out eleven runs to one made by their opponents, the Exposition All-Stars. The latter team was gathered hastily in order to replace the disabled Exposition Federals, with whom the match had been scheduled by the Harris-Franks.

Jevne's aggregation shut out the Scripte team with a score of four to nothing. Pitcher Jones of the winning team had but two hits, while the batsmen had twenty-two, two-out-inning affairs.

Harris and Frank batters knocked out eleven runs to one made by their opponents, the Exposition All-Stars. The latter team was gathered hastily in order to replace the disabled Exposition Federals, with whom the match had been scheduled by the Harris-Franks.

An amusing instance of the bitter fighting bitten occurred in the last inning, when the center-fielder stopped

a ball as the batter reached first base. Thinking to fool the runner, the wily fielder turned with ball in hand and chased himself a few steps toward the outer boundary. Taking the ball, the fielder started for second—and made it safely on the sharp fielder's overthrow.

## HARD TO LIVE ON OIL STOCK.

Finds Hotel Curb Poor Place for Spot Sales.

**Guest Under Arrest Worried Over Money Matters.**

**Plenty of Flowers Found for Rose Tournant.**

[LOCAL CORRESPONDENCE] PASADENA, Dec. 28.—Bringing Mrs. Della Turner, a striking young woman, with him from San Francisco to act as his private secretary, Robert Thompson, who says he is an oil man of Pittsburgh, engaged two apartments at the Hotel Maryland, but when he did not pay his bills, he was arrested for vagrancy.

Through alleged manipulations, it was soon noise about the hotel that notwithstanding his shabby appearance, he was a big oil operator from Pittsburgh. It was also said that he is alleged to have tried to sell stock to Jack Cudahy that the management of the hotel grew suspicious and as a result, Mr. Thompson is passing his days in the police station instead of enjoying the luxury of his comfortable suite. Mrs. Turner is being cared for at the Y.W.C.A.

When arrested he had \$2,08 left from a sum borrowed from his private account, which was given him by the police, it is said, to get him to return the \$2,08, to the woman, but he refused to do so.

When Thompson met Mrs. Turner in San Francisco, where she is said to have been employed by the Panama-Pacific Exposition, he persuaded her to work for him and arranged for them to leave on a boat for Los Angeles. On joining Mrs. Turner at the boat, Mr. Thompson related, he borrowed enough money to pay for their fare to Pasadena, explaining that his partner, whom he had given several large checks, had not arrived. He seemed to be very much annoyed and annoyed and did not wish to be delayed in the trip south.

Having every confidence in her employer, Mrs. Turner readily gave him the money. When at the boat, she mingled very little with the guests and Thompson always entered last and the place through the back entrances, say the hotel people.

### PLENTY OF FLOWERS.

That there will be flower galore, and in quantities and condition to excite the admiration of all in the boats and decorations to be used in the Tournament of Roses pageant, is the opinion expressed last night by A. J. Bertoneau.

Arrangements made by Howell Brown and L. H. Turner, Mr. Bertoneau was as far as Ontario yesterday in his preliminary search for posies for the great celebration and declares never in his many years experience has there been so much such effect. Flowers as now—Marguerites, bougainvillea, poinsettias, sweet peas and violets as well as roses, the flowers of the day, are to be had in profusion.

Arrangements are being made whereby the flowers of various parts of this section of the country will make generous donations. It is said that there will be more than 100,000 violets alone used in the wonderful floral display, and the arrangements for Pasadena's day of得意.

One of the features of the sports to be held at Tournament Park at the conclusion of the pageant that is giving interest to society is the polo pony hunt contest that will take place between Miss Marion Marshon and Dr. Malaby. Both of these expert riders are well known and their equestrian skill is a matter of frequent comment. Their friends, who are awaiting this particular exhibition with more than ordinary interest.

### ROSE BALL LIMITED.

The formal opening of the roof garden of the Hotel Green, which is destined to become one of the show places of Pasadena, will take place on the night of December 31 on the occasion of the "rose ball."

The "rose ball" is to be the exclusive event of the present social season. Only 400 invitations have been issued for the event and the guests will be composed of the cream of Pasadena and Los Angeles society.

### WATCH FOR DRIFTERS.

Officers on the American-Hawaiian steamer Columbian, which arrived today from New York via San Diego, kept a sharp watch coming up the coast for pirates, and to their relief found none. They anchored and enjoyed a "watch night dashant," which will include an exhibition of fancy and feature dances by some of the famed talent of the world.

The men left the stranded steamer to row to the telegraph station at San Quintin, 120 miles away, and nothing was heard of them since. It is feared the boat foundered in the heavy sea that was running at the time.

The motorship was pierced almost to the main deck, according to late wire reports, and to add to the suspense there was no thought that in the background lurked the grim reaper.

"Mrs. Reynolds and the baby were strong and well until yesterday morning when she suddenly became seriously ill and died yesterday afternoon.

## WOMAN TRAINER BITTEN BY INFURIATED LEOPARD.

[LOCAL CORRESPONDENCE]

CEAN PARK, Dec. 27.—Martha Florene, the pretty trainer of leopards and pumas came near being killed last night while putting her animals through their tricks in the caged arena of the Barnes circus on the pier.

The girl was finishing her performance when the leopard and the puma engaged in a battle. The nervous trainer proceeded with the usual course of trying to separate the fighting animals by snapping her whip and firing revolver shots, but this was of no avail, the animals becoming more enraged. As the woman stepped back to get a perch at the side of the cage she tripped over a pedestal and fell to

Rev. Henry Kendall Booth,  
Pastor of the First Congregational  
Church of Long Beach, whose new  
edifice was dedicated yesterday.

At 3 o'clock, leaving her husband and son Clark, in charge of funeral arrangements, it is said, she tried to get him to return the \$2,08, to the woman, but he refused to do so.

When Thompson met Mrs. Turner in San Francisco, where she is said to have been employed by the Panama-Pacific Exposition, he persuaded her to work for him and arranged for them to leave on a boat for Los Angeles.

## Long Beach.

### GREAT CHURCH IS DEDICATED.

Largest Edifice in the South Filled to Overflowing.

Noted Churchmen Gather at Long Beach Service.

Whisky, Gunpowder Cause Half World's Misery.

[LOCAL CORRESPONDENCE] LONG BEACH, Dec. 27.—When more than 2000 Congregationalists today dedicated the magnificent First Congregational Church, an epoch in the religious life of Long Beach was prominently marked. The church is the largest and most costly in this city of churches. Its architecture and appointments are without peer in Southern California. Today's services were the first in a series of six daily programmes which are to follow one another this week.

Dr. Henry Kendall Booth, the pastor, formed a congregation which filled the pews and overflowed, standing in the rear of the church and in the wings when he pronounced the call of worship. Impressed with the beauty of line and tone of the interior, those who had gathered to witness the service for the first time felt that the word that had gone forth was that this was the finest church of the denomination in California, was spoken truthfully.

ORGAN PEALS.

After favorite and appropriate hymns and anthems were sung, and the magnificient Hattaway organ was made to give an appealing interpretation of Gullmant's "Pastoral" in D Minor, Prof. William E. Strobridge, organist, will be driven to the Hotel Raymond in automobiles, where they will entertain nearly a hundred debutantes and their mothers with an elaborate spread.

After dinner they will entertain their fair guests with a banquet. The music for the occasion will be furnished by the different glee clubs of the institute.

ISLAND SINGERS SAILING SOUTH.

### COASTWISE PASSENGER TRAFFIC PICKS UP RAPIDLY.

Hawaiians on Way to San Diego to Build Native Village for the Fair—Reduced Holiday Rates Induces Increased Travel—Ships' Lookouts Watch for Drifters.

[LOCAL CORRESPONDENCE]

LOS ANGELES HARBOR, Dec. 27.—Many of Hawaii's best musicians were passengers on the Pacific Coast liner Congress which sailed for San Diego today. They are among the thirty-eight Hawaiians who are en route to the southern city to build a native village at the exposition.

The natives arrived at San Francisco on the Ocean liner Sierra and transhipped there to the Congress.

Coastwise passenger traffic has shown a marked improvement during the past week, according to porters and ticket agents. The Harvard arriving from San Francisco brought a big crowd. The reduced holiday rates on the white turbinas, coupled with three days in succession account for much of this traffic.

The Yale arrived, and a big crowd and many of the excursionists were return passengers today and will be back at work in San Francisco tomorrow after a day in Los Angeles.

The ball is to be preceded by a sumptuous banquet, and dancing will continue from 9:30 until 11:30 o'clock, at which the guests will repair to the rooms of their hosts for refreshments, entertainment, and will enjoy a "watch night dashant," which will include an exhibition of fancy and feature dances by some of the famed talent of the world.

The men left the stranded steamer to row to the telegraph station at San Quintin, 120 miles away, and nothing was heard of them since. It is feared the boat foundered in the heavy sea that was running at the time.

### SIX INCHES BIG ENOUGH FOR HIM.

[LOCAL CORRESPONDENCE]

PASADENA, Dec. 27.—One of the smallest lots in the world has been offered for sale in Pasadena. It is located in one of the downtown business streets here and has a frontage of six inches with a depth of nearly 100 feet, and is the property of A. Legge.

Senator Finn of Kansas and another tourist were looking at the lot and the companion of the Senator declared that a lot like that is no good to anybody or for anything.

But Senator Finn replied, "You are wrong, Sam, it ought to be bought by Theodore Roosevelt, for if that aggregation of political 'wag-wags' which he heads continues to shrink as it has done of late, he'll find that size frontage with about thirteen inches of depth will be big enough for the burial place of the whole Bull Moose party."

As the woman stepped back to get a perch at the side of the cage she tripped over a pedestal and fell to

Practical Incinerators.

Above is one devised by a minister of Tropico, while below is one of the street department at Glendale.

### GLENDALE.

### STRIKE MATCHES NOW IN SAFETY.

### BURNING PROBLEM SOLVED BY GLENDALE AND TROPICO.

Incinerators Making Good in the Disposal of Trash—Preacher Design Model Which Neighbors Are Copying—Street Department and Merchants Easily Get Rid of Trash.

[LOCAL CORRESPONDENCE]

GLENDALE, Dec. 27.—The brick incinerator has been found by the officials of Glendale to be the best and safest way in which to keep the city streets free from old paper and other combustible material. For several years the Trustees experimented, but as they would not burn satisfactorily, they finally gave up the idea.

R. H. Larkin, head of the missionary movement of the denomination, gave the Scripture lesson to the congregation. Prof. E. C. North, head of Parsons College, offered the prayer of dedication. Special musical numbers and trios were given by Miss Laurelle L. Chase, Miss Hazel Scherzinger and Herman Seidel.

Rev. Daniel F. Fox, D.D., of Pasadena, delivered the sermon of dedication, chose for his text, Joshua 21:24.

### GOD OPENS WAY.

"When your children shall ask in time, 'What means these stones?' said Dr. Fox, in part, 'then shall you tell your children know, saying: 'We were in the same position, and even though we could not possibly build to the Lord God opened the way before us as ye see this day.'

"What is the inspiration of this great achievement? It is a story in the spirit of God's goodness. It is a history in art of His goodness. It is a spiritual in color of His favor. It is a testimony in architecture before the eyes of all those who behold its beauty that the hand of the Lord is mighty."

"To this end you have prayed, wrought, sacrificed, given. Because of this we this day with you rejoice. If in old times the monument at Gilgal bore silent testimony to the might of God, this edifice of stone, of the sons of Israel, who had crossed the Jordan, and whose forty years of wandering had come to an end, and they erected a monument to commemorate the deeds of the faithful, God, a thousand-fold more will this Christian church be accepted of Him, to be not only monumental, but a blessing to those who have made it possible, and an inspiration to the countless thousands who, in years to come, will gather here for worship and service."

"A feeling comes over us sometimes like a bad dream that God cannot really care, or He would not allow things to happen like the European war. But in war progress to destruction seems slow. We no longer put captives to death as in the olden times. When we shall have put one-half the thought, time and money into ushering in the reign of the Prince of Peace that we have put into the manufacture of big guns and munitions of war, we will abolish war."

"If the nations of the world were to prohibit the manufacture of whisky and gunpowder, one-half the world would end."
